

The main sources of income are:-

- Profits from the tea bar
- Individual supporters
- Montagu hospital cup football competition
- Donations from private individuals in lieu flowers
- Local organisations.

The tea shop sells drinks and snacks for patients, staff and visitors at the Montagu hospital. This important service is provided by volunteers, who give up a few hours each week to provide the facility.

Ten Years of Achievement

The Mexborough Montagu Hospital Comforts Fund

The Mexborough Montagu Hospital Comforts Fund

was established in 1948 when hospitals were transferred to State administration.

Since then, the need for continued voluntary aid has been increasingly obvious, and a tremendous amount of work has been done by members of the Montagu Hospital Comforts Fund Committee and Volunteers, to provide for the patients extra amenities which could not be supplied in the normal course of treatment.

Volunteers are needed to help staff the tea shop.

Will you assist?

1995-2005

The total sum of £164,078 has been spent on behalf of the patients and staff over the last 10 years.

A source of considerable pride is the income raised by the lady volunteers who staff the tea bar facility in the Hospital foyer.

On behalf of the Comforts Fund Committee and the thousands of patients who have warmly appreciated the benefits derived, we offer sincere thanks to the public for the past 10 years and appeal for sustained interest and financial help for this valuable work in the future.

Examples of the type of purchases from your contributions on behalf of patients and hospital staff.

Sincerely Yours

Dr J. Barrie Ford
